The Hartford Post says: John F. Craney of Norwich was at the capitol Friday. He was a member of the legislature of 1911 and 1913.

DECISION RESERVED IN JOHNSON WILL CASE

Testimony Completed Saturday in Local Probate Court.

Judge Nelson J. Ayling has reserved his decision in the hearing on the will of Dr. Nathan Johnson which is being contested.

The hearing was resumed Saturday morning in the local probate court.

When the hearing opened Saturday Dr. W. K. Tinsley was called by Lawyer Shields for cross-examination.

Dr. Tinsley testified that he did not see Dr. Johnson once when Dr. Donohue was there and once when Mr. Cranstock was there. Did not see Dr. Johnson on the night of April 11. Found the doctor weaker and run down on the morning of the 12th. Would seem the end was approaching.

He could not remember that Henry Dr. Johnson had been to see Dr. Johnson and had arranged that Henry Dr. Johnson was to have the power of attorney from Dr. Johnson or that Dr. Johnson had called and a power of attorney was given Mr. Mat was the witness stated that on April 11 he gave the order that no one was to see Dr. Johnson and that he did not give Lawyer Mathewson permission to see the doctor.

Dr. Tinsley did not know that Dr. Johnson tried suicide. In 1911 Dr. Johnson did take nitro-glycerine tablets on the morning of the 12th. He had five years ago if he had not taken nitro-glycerine tablets. He had, Dr. Tinsley said, had a tendency to sleep at any time.

Dr. Johnson might have run about a big and wide and talked of going crazy on account of taking three or more drinks said Dr. Tinsley but Dr. Tinsley did not make him act as he did in the barn.

Dr. Tinsley stated that all the time he was in the house he was talking to Dr. Johnson. If Dr. Johnson said he was poor and would have to go to the poor house, he must have been joking. It was the remark of an imbecile. Such a man should have been in an asylum and not living in a good family.

The peculiar acts of Dr. Johnson were to his physical condition. Dr. Johnson was a man who did not think it an evidence of insanity when Dr. Johnson walked in his nightgown and trousers on. It was in keeping with his other acts. Just as natural for Dr. Johnson to go without his trousers as it was for him to go without his nightgown.

Dr. Tinsley said that he did not know that Dr. Johnson tried suicide. In 1911 Dr. Johnson did take nitro-glycerine tablets on the morning of the 12th. He had five years ago if he had not taken nitro-glycerine tablets. He had, Dr. Tinsley said, had a tendency to sleep at any time.
